

MORETRENCH AMERICAN CORPORATION

Promotion

THOMAS J. TUOZZOLO, P.E.

to Vice President

Moretrench American Corporation is pleased to announce the promotion of Thomas J. Tuozzolo, P.E. to Vice President.

Mr. Tuozzolo has been with the firm since 1998. During the past five years, Mr. Tuozzolo has established Moretrench Geotec, the geotechnical division of Moretrench American Corporation, as a quality provider of geotechnical construction services in the Northeast. Since its inception and under Tom's direction, Moretrench Geotec has successfully completed numerous high-profile projects. Some notable projects include the Robert Wood Johnson Hospital Cancer Center expansion in New Brunswick, NJ, the University of Medicine and Dentistry addition in Newark, NJ and the Bank Street Commons Development in White Plains, NY.

As Vice President, Mr. Tuozzolo will continue to manage Moretrench Geotec, which executes projects involving soil nailing, minipiles, tiebacks, earth retention, underpinning, grouting and rock protection systems. His involvement will continue to focus on strategic management and project direction, as well as liaison with clients, technical personnel, field supervisors and regulatory agencies.

Mr. Tuozzolo is a licensed Professional Engineer and has over 15 years of civil and geotechnical engineering design and construction experience. He has authored over a dozen technical papers and given numerous presentations on a variety of geotechnical engineering technologies.

He is a Member of the American Society of Civil Engineers, the Deep Foundations Institute, ADSC and the Construction Institute. He also serves on a number of technical and construction committees.
